Long Beach, CA 90802

Subject: Letter of Recommendation

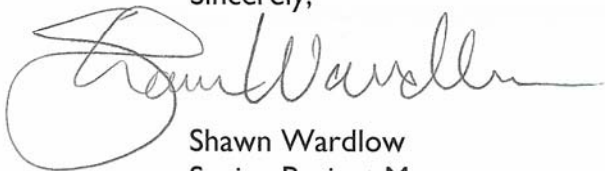

Dear Mr. Flinn,

As you know, C. W. Driver has used Construction Specialty Services (CSS) to perform peer reviews on several projects. In a relatively short period of time, CSS has become a valued partner in our construction management efforts.

We have found CSS to be comprehensive, thorough, and professional in their approach and deliverables. They have consistently delivered quality peer reviews, and have met our accelerated schedules and deadlines on several occasions.

The value of CSS is recognized in a more organized and accurate set of construction documents, which ultimately results in reduced number of change orders. We would appreciate your efforts and would recommend CSS to any organization whose business operation includes the design and bid of construction documents.

Sincerely,

Shawn Wardlow
Senior Project Manager
